We are the Follmann Chemie Group, your partner for specialty chemicals

The Follmann Chemie Group is an owner-managed, internationally operating group of companies with headquarters in Minden. The Group includes the Follmann and Triflex divisions, with numerous foreign companies. The Group's key competences include the development, production and distribution of speciality chemicals. We produce printing inks, adhesives and coatings for the processing industry, and seals, markings and infrastructure products for the construction chemical industry. Over 900 employees all over the world help us to generate a turnover of approx. EUR 250 million, with a production volume of over 60,000 metric tonnes.

We are committed to a responsible energy policy

Follmann Chemie GmbH, located in Minden, is continuously committed to improving its energy-related performance. This commitment is ensured through the following measures:

- Compliance with applicable laws and regulations
- Development of a transformation concept
- Implementation of the Climate Protection Act and the goal of achieving greenhouse gas neutrality by 2045. This requirement is also embedded in our [Environmental Policy](#).
- Ensuring internal processes conform to DIN EN 50.001 standards
- Measurement, recording, and ongoing review of energy consumption data to identify abnormal usage patterns and operational states at an early stage
- Application of appropriate and effective technological, organizational, and behavioral measures to ensure continuous improvement in energy performance

The realization of this energy policy is achieved through the implementation of a comprehensive energy management system, which includes:

- Systematic evaluation of energy consumption
- Recording and maintaining up-to-date energy flow data
- Planning and implementing energy-saving measures

for review from:
02.06.2028

- Prioritizing energy-efficient equipment during procurement
- Considering energy efficiency in design and planning
- Regular evaluation of the results of energy-saving initiatives
- Keeping planned activities for improving energy efficiency continuously up to date
- Ongoing development of structures, processes, and procedures within the management system

To effectively implement this energy policy, an Energy Team has been appointed. This ensures that existing resources are utilized as efficiently as possible and that a reliable, transparent approach is adopted for solutions and decision-making, accessible to all interested stakeholders.

Our overarching environmental goals are documented in our [Environmental Policy](#). Within our Energy Management System, we set operational targets aimed at enhancing our energy performance.

Scope

This energy policy applies to the Minden site of Follmann Chemie GmbH.

Minden, 15/05/2025
